

YOUR CHILD'S FIRST STEP TOWARDS A GREAT FUTURE!

MOUNT
INDEX
INTERNATIONAL
SCHOOL

Mount Index International School envisions students becoming moral, empathetic, and socially responsible citizens of the country. Our students are rooted in their culture and are ready to accept any challenge with a fresh approach towards learning. To meet this goal, the school does many activities and offers theme-based, conceptual, experiential, as well as customized learning based on each student's ability.

NOT JUST STUDYING BUT LEARNING FOR A LIFETIME!

At Mount Index International School students not only balance academics, sports, and co-curricular activities but excel in them.

A MESSAGE FROM THE DIRECTOR'S DESK!

Mount Index International School, Indore is a vibrant learning School that encourages a three way partnership Between Students Parents and the teachers. The strength of that partnership is reflected in the success of our students. More than educating it Educates. Our Purpose to launch this school in Indore is to expose the young generation to the most advanced methods of technology, groom their innate talents and inculcate human values in them. It prepares them to lead with example.

Best Regards,

Mr. Suresh Singh Bhadoria
Chairman
Index Group of Institution, Indore

The group has been able to carve a niche in the field of the city's educational scenario and this is an apt reflection of the earnest and untiring efforts of all concerned. I have always envisioned creating a happy and healthy environment for the students to facilitate real education to take place as against empty instructions. We strive to provide more focus to students of Indore to give them exposure and to ensure that they cultivate their individual excellence as global citizens.

Best Regards,

Mr. Mayankraj Singh Bhadoria
Managing Director
Mount Index International School

“EDUCATING THE MIND WITHOUT EDUCATING THE HEART IS NO EDUCATION AT ALL.”

Over the past decades, education has shifted towards more focus on achieving excellent marks and quick success rather than being engaged in the process of learning. This has led to more stress, anxiety, restlessness, low self-esteem and unhappy life. Our endeavour as mentors is to equip our children with life skills to face the real world -be it planning, organizing, deciding, analyzing, team building, communicating effectively and dealing with challenges confidently.

The seeds of a dramatic transformation in education are being planted. Prompted by information technology in terms of artificial intelligence and huge demand for better learning outcomes, we at MIIS are slowly but surely reconstructing ourselves. We are open to adopt and adapt new practices that acknowledge both the art and science of learning. Our focus is to know each student as an individual, in order to comprehend his or her unique needs, learning styles, social and cultural backgrounds, interest and abilities. I wish you all to have a happy learning experience with a new awakening.

The initiation of educational reforms by CBSE has no doubt set in varied challenges for us to strengthen the

infrastructure and curriculum design to cater to the challenges. Though system amendments have ushered a paradigm shift, but I strongly feel that through meticulous planning, we would be able to meet and compensate all demands.

The height of your accomplishments will equal the depth of your convictions. I congratulate all our stakeholders, our proud students and all the diligent mentors for successfully accomplishing the goals set by the school every year.

I feel determined, as the Head of this institution, to direct all my endeavours in providing a challenging academic environment emphasizing learning as well as social and personal growth. With a proper planning and seeking support of the parents I am sure that our journey ahead will be fruitful and meritorious.

I hope fervently that together we will reach our fullest potential.

Best Regards,

Mr. Shyam Agrawal
Principal
Mount Index International School

OUR MOTTO - SELFLESS SERVICE!

VISION

To provide an environment that helps young minds freely learn and develop, and help children evolve as complete individuals, ready to transform as leaders of the 21st century with values and life skills inculcated in them.

MISSION

To facilitate a learning environment that encourages children to bring out the best in them-selves and enables their all-round development through the joy of learning, enduring values and the celebration of diversity.

COMPOSITE SCIENCE LAB

FOCUS ON CONCEPTUAL AND EXPERIENTIAL LEARNING

Conceptual Learning for children helps them understand the world around them like direction, location, position, number, quantity, sequence, attributes, dimension, size, similarities, and differences. It helps children understand the core concept rather than just sharing a layer of important information about the concept.

OUTDOOR PLAY STATION

At Mount Index International School, we have developed an extensive program with a vibrant play area and practical labs that help children understand the overall idea of objects around them.

CONCEPT CLASSES

- Learning by Letters
- Learning by Colors
- Learning by Numbers
- Learning by Animal Names

ACHIEVING
LAURELS WITH
AMPLE SPORTS
FACILITIES!

Sports make students physically and mentally fit, and it also helps to keep them stress-free and look beyond books. Mount Index School's students keep achieving laurels at various levels of competitions. Every day there is an hour dedicated to sports.

EXPLORING
& ENHANCING
HIDDEN
TALENTS!

We equally focus on talent grooming classes for our students to let them identify their real talents. Our performing arts classes of painting, music, dance and art n crafts help children find their interests and pursue their desired careers in the future.

INVENTING THE
FUTURE WITH
EXPERIMENTS
& INNOVATION!

We have well equipped Laboratories to let our students excel in experiments. Be it physics, chemistry, or robotics, our students keep learning through regular practical sessions and always invent something new with proper research, expert guidance, and unique experiments to innovate.
